C63	4.5	Table 1	Technical	we should remove the "passive" qualifier from the Loop Antenna reference in Table 1 ANSI C63.4-2009. Table 6 of C63.2 does NOT contain the "(passive)" qualifier, so there is no danger of "getting out of sync" if we make the change to ANSI C63.4 Table 1.	Remove (passive) for the loop antenna in table 1.	The statement in table 1 of C63.4-2009 is compatible with the listing in table 6 of C63.2. It is an additional requirement for that standard. Therefore, there is no need to make any change in C63.4-2009.
