

WG 1-15.6

C63.5-2006 Revision, April 2009 Update

Dennis Camell
NIST

WG 1-15.6, C63.5 revision

Items finished

- ☑ Suggested editorial changes
- ☑ Re-arrangement of sections to handle additional text
- ☑ Improved harmonization with IEC and VCCI with re-worded/additional text
- ☑ Formatting using new IEEE format

WG 1-15.6, C63.5 revision

Items that still need work

- ◆ Add time domain gating for free space approximation
- ◆ Finalize frequency step size requirements across bands
- ◆ Finalize reference antenna changes (dipoles only?)
- ◆ Resolution of WG members feedback from second draft
- ◆ Check equations for accuracy and consistency
- ◆ Check and cleanup IEEE formatting, if necessary

WG 1-15.6, C63.5 revision

REVISED schedule
By June 2009 to SC1
FOR VOTE

Thanks to the WG;
hard working individuals
who further our US national
EMC standards
