

Use of Spectrum Analyzers for Emissions Testing

Project Status Report

Werner Schaefer

Quality Manager

Technical Leader

Cisco Systems, Inc.

San Jose, CA 95134

Use of Spectrum Analyzers for Emissions Testing

- A suggested text to address all outlined aspects was submitted to the working group members, the chair of C63 SC1 and the leader of project 1-15.9 (Stephen Berger) on March 25, 2007.
- It was suggested that the text be reviewed by the working group and feedback be provided by April 30, 2007. No feedback was received.
- The text was then submitted to Stephen Berger for inclusion in C63.4
- The text is now included in various parts of ANSI C63.4

Use of Spectrum Analyzers for Emissions Testing

- ❑ The project itself now is complete but the publication and balloting will occur with the balloting on ANSI C63.4
- ❑ Comment resolution and disposition should occur in parallel to the resolution of comments received on ANSI C63.4
- ❑ For the time being no further action is required since the project is now completely enveloped by the revision process of ANSI C63.4

Use of Spectrum Analyzers for Emissions Testing

- Membership of working group (March 27, 2007):
 - 1) Werner Schaefer – Cisco Systems, convener
 - 2) Michael Foegelle – ETS Lindgren
 - 3) Steve Martin – FCC
 - 4) Dennis Camell – NIST
 - 5) Victor Kuscinzcy – Vican Electronics
