1. Call to order and introductions

The chair called the meeting to order at 10:00 AM. Self-introductions were made.

2. Approval of agenda

The agenda was approved.

3. Reports from WGs

a. C63.17

The 2013 revision of C63.17 has received ANSI approval and the new version has been published.

The DECT Forum believes that some changes may be needed to 3 of the test methods in response to the development of DECT ULE. A committee study project was approved to look at the issue.

b. C63.27

The draft was presented to the SC which has moved from version 0.8 to 0.12 since the last meeting.

4. New business

a. A discussion was held regarding the need to have better data on the variation in the EM environments in which devices will operate. A motion was made and passed for Jason Coder to head a study project seeking to gather data on EM environments. A first step in the project will be to define data formats so that data from different sources can be bring together and used in a larger data set.

5. Schedule future telecon or in-person meetings

The next meeting will take place as part of the next C63 series of meetings.

6. Adjourn
